Invasive Thistle Cutting

July 11th, 9:00 – 11:00 am
Maybury State Park, (Eight Mile Entrance)
Trailhead Building

Join our volunteer thistle-cutting crew. Together we'll snip the heads from invasive thistles to reduce their seed germination to allow more native plants to thrive.

What is Invasive Thistle and why is it bad?

Creeping (Canada) Thistle is native to Europe and Asia and threatens to replace native plants in high quality natural areas, which in turn reduces critical food resources for birds, butterflies, and other wild creatures.

What to bring/wear: Dress for the weather - wear hat, work gloves, sturdy shoes, light colored long pants/shirt. Bring bug spray, water and snacks and garden snips (if you have them).

Weather Cancellation: This event will occur during rain, but will be canceled in the event of thunder or lightning.

Hazards: Ticks & other insects are active. Light colored Long pants/shirt recommended.

Please use the QRC to register so we know you are coming. Reach out to us at mayburyvolunteer@gmail.com with any questions.
