# Meeting of the DDA Board of Directors City Hall – Meeting Room A 215 West Main Street April 16, 2019 - 8:00 am

#### **AGENDA**

- 1. Call to Order Shawn Riley
- 2. Audience Comments
- 3. Approval of Agenda and Consent Agenda
- 4. Consent Agenda
  - a. February 2019 Financial Statement (Attachment 4.a)
  - b. February 2019 Invoice Report (Attachment 4.b)
  - c. March 2019 Financial Statement (Attachment 4.c)
  - d. March 2019 Invoice Report (Attachment 4.d)
  - e. February 19, 2018 Meeting Minutes (Attachment 4.e)
  - f. March Meeting Cancellation Notice (Attachment 4.f)
  - g. 2018 Captured Taxes (Attachment 4.g)
  - h. 3<sup>rd</sup> Quarter Budget Amendments (Attachment 4.h)
- 5. DDA Board Requirements (Attachment 5)
- 6. Party in the 'Ville Sponsorship (Attachment 6)
- 7. Proposal for logo and branding Design (Attachment 7)
- 8. Rebecca's Alleyway (Attachment 8)
- 9. Committee Information and Updates (Attachment 9)
  - a. Design Committee Robert Miller (Attachment 9.a)
  - b. Marketing Committee Shawn Riley (Attachment 9.b)
  - c. Parking Committee John Casey
    - i. Parking Deck Repair Project Update (Attachment 9.c.i)
  - d. Organizational Committee Carolann Ayers
  - e. Economic Development Committee Aaron Cozart (Attachment 9.e)
- 10. Future Meetings / Important Dates
  - a. Economic Development Committee April 30, 2019
  - b. Marketing Committee May 2, 2019
  - c. First Friday Experience May 3, 2019
  - d. Executive Committee May 8 2018
  - e. Design Committee May 13, 2019
  - f. DDA Board Meeting May 21, 2019
  - g. Economic Development Committee May 28, 2019
- 11. Board and Staff Communications
- 12. Adjournment Next Meeting May 21, 2019

03/05/2019 03:15 PM

#### DOWNTOWN DEVELOPMENT AUTHORITY Regular Meeting of February 19, 2019 Meeting Room A

The regular meeting of the DDA Board was called to order at 8:05 a.m.

#### ROLL CALL

Present: Mayor Ken Roth, Chairman Shawn Riley, Margene Buckhave, John

Casey, Robert Miller, Greg Presley

Absent: Carolann Ayers, Aaron Cozart, Jeri Johnson, Jim Long, Mary Starring

Also Present: Patrick Sullivan/City Manager, Lori Ward/DDA Executive Director, Fred

Sheill/resident

#### **AUDIENCE COMMENTS**

None

#### APPROVAL OF AGENDA AND CONSENT AGENDA

#### Consent Agenda

- a. January 2019 Financial Statement
- b. January 2019 Invoice Report
- c. January 15, 2019 Meeting Minutes

**Motion by Roth, seconded by Casey** to approve the Agenda and Consent Agenda as presented. **Motion carried unanimously**.

#### **DDA GOALS AND OBJECTIVES 2019-20**

The DDA Board of Directors met on December 18, 2018 to discuss the 2019-20 Goals and Objects and voted unanimously to approve the document and forward to City Council for consideration at a Special City Council meeting held on February 4, 2019. Several requests were made by members of the City Council to change or add new language to the DDA Goals and Objectives including:

- Inclusion of a Goal to fill the vacant part time DDA staff position
- Work with the Northville Historical Society to develop a walking map and app to highlight Downtown's history and architecture.
- Explore creating a dark-sky program to reduce light pollution and providing lighting regulations for Downtown Northville's public streetlights.
- Work with DDA consultant LandUSA to clarify the terms commercial and retail used in the Target Market Analysis developed as part of the DDA's 2017Strategic Plan for Downtown Northville and to determine the amount of commercial development the City of Northville can sustain.

DDA staff revised the DDA's Goals and Objectives to address the 4 issues raised at the City Council meeting.

**Motion by Casey, seconded by Roth** to approve the DDA Goals and Objectives for 2019-20 as amended. **Motion carried unanimously**.

#### **REVIEW OF DDA 2019-20 BUDGET**

Ward stated that the 2019-20 budget shows the DDA revenue up slightly by \$20,000. The final assessment numbers will be available at the end of February and will provide a more accurate estimate. In addition, several new projects located in the DDA District have either received Planning Commission approval or are involved in the planning process. While these projects will most likely not be completed in this fiscal year, they will have an impact on future DDA revenues. The DDA will begin the fiscal year on July 1, 2019 with a fund balance of roughly \$350,000.

Ward stated that the Organizational Committee met to review the Draft Budget prepared by staff and elected to include all of the Capital Projects that are currently in the planning stages of the various committees and allow discussion by the Board on whether to use Fund Balance in order to complete the projects. The draft budget calls for the use of \$64,744 in fund balance. The changes in this year's budget to note include:

- Increase in DPW salaries, fringe benefits, and equipment rental in the amount
  of \$25,000. This budget has increased as the DDA is picking up the cost for
  services previously provided by the City as part of the General Fund Budget.
- Inclusion of a part time (30 hours per week) marketing coordinator. The position had been vacant since May of 2018.
- Addition of funding for an Historic Markers Program and Downtown Mural project each in the amount of \$5,000.
- Addition of a new Directory sign north of the Comerica Community Connection in the amount of \$3,000. This sign will be compatible with the two directories already installed at Old Church Square and Town Square.
- Addition of \$15,000 to complete the conversion of existing High Pressure Sodium lights to Induction lighting. Part of the project is funding in the current 2018-19 year.
- Replacement of Town Square's Festoon lighting \$20,000.
- Replacement of the remainder of the old wooden benches with new benches
   \$16,600. These charges will be offset by sponsorship revenue.
- Fabrication and installation of two sets of Cross Street Banners \$29,000.
- Logo and Branding Development. A project that was started with the Wayfinding project \$4,000.

Ward informed the Board that the biggest challenge facing the DDA over the next several years will be the immediate and long term plan to address the maintenance of the city's parking system. The Parking Consulting firm Carl Walker/WGI was retained by the DDA/City to evaluate the two parking decks and develop an Improvement Plan to bring the two decks up to good condition and develop a long term maintenance plan for the decks which details routine annual maintenance items that are recommended to keep the parking decks in good condition through their entire life cycle. The

Improvement Plan was completed in September and identified an initial repair plan that is estimated at \$725,185 and the next 18 year of maintenance is estimated at \$1,713,000. Ward advised that the next step in the process is to have construction documents prepared of the identified capital projects in the first 2 years totaling \$725,185. In addition to the Carl Walker Study, the City has retained Fleis and Vandenbrink, the City Engineers, to evaluate the surface parking lots and to determine a repair/replacement plan for the next 20 years.

Carlise Wortman has been assisting the City/DDA with a financial strategy to pay for the needed improvements. There are a limited number of options that are available to pay for the project: paid parking, Special Assessment District, Parking Fund, TIF revenue or a combination of the four sources. Once the City/DDA has all of the costs assembled, a plan will be put together and presented to the DDA and City Council.

The DDA will need to decide how much of the Fund Balance to use on this year's recommended capital projects described above. The Draft 2019-20 budget recommends utilizing \$64,744. This will still provide the DDA with a Fund Balance at the end of the year of 35% of revenue or \$282,438. The only new non-capital project that is included in this year's budget is the increase in DPW services of \$25,000. In this or future budgets, in order to balance the DDA budget, \$25,000 in reductions would need to be made on operational costs which would target either part time staff, marketing, or ongoing event support.

Discussion was held on the use of Fund Balance to address capital projects. The Board was in favor of using Fund Balance to address the projects noted in the Communications. Roth inquired how many concerts the Chamber was going to provide as part of the Friday Night Concert series. Ward noted that there were 9 concerts. Roth suggested that the DDA encourage the Chamber to schedule a concert series that runs from Memorial Day to Labor Day. There was support from the Board to contribute more DDA funds if the Chamber would extend the concert season.

A review of the DDA budget will need to take place to determine long term how to address the ongoing increase in DPW charges. This will require cuts to the DDA's budget either through marketing, personnel, or events.

**Motion by Roth, seconded by Presley** to approve the proposed DDA 2019-20 as presented by DDA staff and forward to City Council for consideration. **Motion carried unanimously**.

#### PARKING DECK REPAIR CONTRACT

Ward updated the Board on the Parking Deck repair project. In April 2018, the DDA Board voted to retain Carl Walker/WGI to perform a condition and structural assessment of the MainCentre and Cady Street Parking, pedestrian bridges, and attached stair/elevator towers. The Scope of the project included:

- Inspection and Data Gathering;
- Data Analysis

- Life Cycle Assessment
- Improvement Plan Development (capital and maintenance)

Carl Walker completed the assessment of the two decks in late August 2018. The report identified capital projects in the amount of \$725,185 for the two decks. In addition, the report outlined necessary maintenance for an additional 18 years totally \$1,713,000. The DDA and City have been working with Carlisle Wortman to develop a financing plan to implement the recommendations. The options that are being explored are the creation of a Special Assessment District, developing a paid parking program, utilization of the Parking Fund, utilization of DDA TIF revenue (directly or to service a bond debt) or a combination of any of the 4 items.

Sullivan noted that in addition to the Carl Walker Study, the City has retained Fleis and Vandenbrink, the City Engineers, to evaluate the surface parking lots and to determine a repair/replacement plan for the next 20 years. Sullivan stated that the two projects may be combined for funding. Once a financing plan has been developed, the plan will be presented to the DDA and City Council for review and approval.

Ward stated that the next step in the process is to develop construction documents for the project. Staff solicited a proposal from Carl Walker to develop the construction documents for the recommended repairs, assist in the bidding and award process, and complete all construction administration and observations during the construction process. Presley asked how long the project would take to complete. Ward stated that schedule for the project is roughly 6 months. Ward asked the DDA Board to approve the proposal from Carl Walker for a fee of \$39,500 plus reimbursable expenses for the outlined work.

**Motion by Roth, seconded by Presley** to approve the proposed contract with Carl Walker/WGI to prepare construction drawings, assist in the bidding and award contract and provide construction administration for the capital improvements outlined in the August 6, 2018 Parking Reports. **Motion carried unanimously** 

#### **COMMITTEE INFORMATION AND UPDATES**

- a. Design Committee Miller updated the Board on the February Design Committee's meeting held on February 11, 2019.
  - Committee addressing how to move the piano out of Old Church Square. It
    was suggested that the adjacent businesses be contacted to let them know
    that the piano was being relocated. Buckhave noted that the harsh weather
    really impacted the piano.
  - Committee is working on the mural project. The initial project will be at Main and Center. Chuck Murdock is heading up the effort
  - The Committee is getting pricing to replace the heavy and hard to use fire pits with a lighter weight model that can be started remotely and/or be used on a timer
  - Ward is working with the DDA's vendor for benches to determine the cost of sponsorship for individuals interested in sponsoring a bench.

- Design Committee will be assisting the City in the design process of developing new Entranceway Signs for the City.
- b. *Marketing Committee* Riley updated the Board on the Marketing Committee's recent meeting on February 7, 2019.
  - The Committee met at Mill Race Village, next month will be at Township Hall.
  - Dan Ferrara is heading up a committee that is looking at ways to rejuvenate the Heritage Festival. The committee has met several times and received lots of good input on how to encourage additional organizations to participate in the event. Each of these organizations would contribute to a unique item during the festival.
  - Ward is working on the new Restaurant Guide for Northville.
  - The Library has a new Director, Laura Mancini.
- c. Parking Committee No meeting was held.
- d. Organizational Committee Chairperson Ayres was not present at the meeting.
  - Revised Goals and Objectives were presented to the Board and approved.
  - The DDA proposed budget was approved and will be forwarded to City Council for discussion.
- e. *Economic Development Committee* Chairperson Cozart was absent from the meeting.

#### **FUTURE MEETINGS/IMPORTANT DATES**

Future Meetings / Important Dates

- a. First Friday Experience March 1, 2019
- b. Marketing Committee March 7, 2019
- c. Northville Marketplace March 9, 2019
- d. Design Committee March 11, 2019
- e. Executive Committee March 13, 2018
- f. Economic Development Committee TBD
- g. DDA Board Meeting March 19, 2019

#### **BOARD AND STAFF COMMUNICATIONS**

The next DDA Board meeting is March 19, 2019 **Meeting adjourned at 9:06 am** 

Respectfully submitted,

Lori M. Ward. DDA Director

## The March 19, 2019 meeting of the DDA Board of Directors was cancelled.

#### NORTHVILLE BOARDS AND COMMISSIONS GUIDELINES

Thank you for your interest in serving on a City of Northville Board or Commission. It is through strong community support and participation that our city provides quality services and creates a desirable community for our citizens. In order to attract the most qualified individuals to serve on our Boards and Commissions, the City announces all vacancies at City Council Meetings and advertises on the City website, in City news publications and the Northville Record.

We ask that you consider the following guidelines when accepting a position on a board or commission.

- Willingness and ability to attend meetings. Boards and commissions need members to attend scheduled meetings in order to have a quorum to act. Please confirm that you will be able to attend AT LEAST 75% of all scheduled meetings. It is also important to inform the chairperson in the case of a scheduled or emergency absence.
- Conflict of Interest. At times, members have a conflict of interest with an issue that is before the board or commission. Please review the City of Northville Standards of Conduct and Ethics Resolution (attached) and your Commission's By-Laws to determine if you have a conflict of interest. If you are in doubt, please advise the City Manager of your concerns. In order to assure that a quorum is present, it is important that you inform the chairperson, prior to a meeting, if you have a conflict of interest.
- **Meeting Preparation**. It is important to arrive at meetings being familiar with any material that is distributed prior to the meeting. This will allow for meetings to flow smoothly and run as efficiently as possible.
- **Prompt response to email or other contact**. Chairpersons or city employees try to attend to organizational duties via email or other means. It is important to respond to contacts in a timely manner to that details can be resolved prior to meetings.
- Open Meetings Act. All Northville boards and commissions follow the Open Meetings Act. No
  group 'conversations' can occur via email. Always 'reply' to only the sender of any
  communication. Dialogue around any issue; that could be perceived as deliberating toward a
  decision, will occur only during commission and board public meetings.
- **Courtesy and respect.** Citizens who attend board and commission meetings may be passionate about issues that involve the Northville community. Courtesy and respect from board and commission members is expected at all times.

#### **DDA Communications**

To: DDA Board of Directors

From: Lori Ward, DDA Director

Subject: Party in the 'Ville

Date: April 16, 2019

#### Background:

Last year a new event was added to the Northville summer calendar. Party in the 'Ville was organized by Kevin DeGrood of North Center Brewing Company and is a celebration of "All Things Northville". The event will be held in Town Square and on Main Street between Center and Hutton Streets. There will be live music from 1:00-10:00 pm, food, beer and wine tent, activities and booths of local businesses. Based on last year's attendance, the Party is expected to draw between 1,000-2,000 people.

Last year the DDA participated in the event with a booth set up to promote events and businesses in the downtown. In addition, the DDA partnered with Up2Go to promote the new EV Charging stations that were scheduled to go in later last summer. Up2Go featured a Tesla car and information on electric vehicles.

The DDA has been approached by DeGrood to be a sponsor of this year's festival.

#### Recommendation:

DDA staff recommends that the DDA sponsor the event in the Gold Level at \$1,000. This will provide the DDA with exposure on the event Facebook site and other social media, on other print material produced for the event and provide a booth as part of the sponsorship. The sponsorship funds will allow the event organizers with additional support for other activities and a wider promotional outreach.

#### **DDA Communications**

To: DDA Board of Directors

From: Lori Ward, DDA Director

**Subject: Logo and Brand Development** 

Date: April 16, 2019

#### **Background:**

As part of the Wayfinding project, a new logo/symbol was developed and incorporated into the design of the signs. The DDA Design Committee had discussed with the designer Buzz Bizzell the desire to complete a brand/logo project building on the design work completed in the Wayfinding project. In addition, City Hall has decided to move forward with the development of a design for the Entranceways of Northville using Buzz Bizzell. DDA staff, assisting the City, solicited a

proposal from Bizzell to complete the work. Bizzell provided a proposal for the two items combined: the entranceway designs and the brand/logo project totaling \$11,000 (Attachment 7.A). The Entranceway signs portion of the proposal is \$7,800 and the DDA's share would be \$3,200.

As part of the initial implementation of the Wayfinding program, the graphic symbol that was established has been accepted as a brand image. Further graphic application of this symbol can be visualized throughout the city as it can be applied to marketing and physical uses like benches, recycle containers and more. The goal of the project will be to create a guideline that shows examples for the symbol being applied to a wide range of media, assuring correct use. The brand/logo guideline that will include graphic examples, written rationale, and digital executions of the final artwork: including logo, tag lines, color guidelines and example advertising.

Attachment 7.B provides a similar product developed for the City of Rolesville. The City of Northville, if interested, could participate in the brand exercise to develop a compatible logo for the City while going through the entranceway design.

#### Recommendation:

DDA staff recommends that the DDA accept the proposal from Bizzell Design to prepare a Brand/Logo for the Northville DDA and develop a brand manual to develop standards and colors for use in the application of the brand. The cost of the project is \$3,200.

#### Quote #43018

April 30, 2018

Lori M. Ward, AICP Director, Northville Downtown Development Authority 215 West Main Street Northville, MI 48167

Northville MI, Adaptation of Graphic Symbol into a Civic Logo

As part of the initial implementation of the civic wayfinding program, the graphic symbol has been accepted as a brand image. Further graphic application of this symbol can be visualized throughout the city as it can be applied to marketing and physical uses like benches, recycle containers and more. Our goal will be to create a guideline that shows examples for the symbol being applied to a wide range of media assuring correct use.

The brand/logo guideline that will include graphic examples, written rationale, and digital executions of the final artwork: including logo, tag lines, color guidelines and example advertising. Application guideline will show examples of how the logo will be applied to stationary, forms, business cards, website, civic signage, banners, event posters and apparel.

Gateway In addition, we will develop three design concepts for Gateway to Northville monuments / signage. Upon selection of design type we will create a full set of working drawings and assist the town through the bid process.

Design fee includes full color image & vector patterns and full copyright ownership rights.....\$11,000.00

### Town of Rolesville Official Brand Guideline

#### Contents:

1& 2 Project Overview
3-Positioning Statement

8- Signage & Vehicle
9- Dimensional option
10- Digital File Map

"Our goal within the scope of this project was to create a very effective graphic brand for our town.

However, we will first create a memorable *place* and *position* for this brand to *perform*."

Town of Rolesville Branding Workshop In 2017 Rolesville the town council embarked on an economic development plan that included an initial study of a new downtown vision. With the help of town residents (stakeholders) Capital Area Metropolitan Planning Organization and area experts and consultants created an overall plan. This is a trend taking place in many North Carolina small towns with the help of North Carolina Main Street and the National Trust for Historic Preservation. This organized approach and wealth of support from our State have been essential in maintaining the balance of quality growth while preserving the history and natural resources.

A major recommendation of the report has led the town to begin a new brand and Identity program and Kelly Arnold, town manager researched and interviewed experts in small town branding. The town stakeholders selected a small firm Bizzell Design, Inc. "The committee members were impressed by Bizzell's philosophy and methodology in creating an authentic brand story. He developed a process that actually brings us all together emotionally and just like writing a script for a great movie, we all uncover what is really important about our town and we all as a group begin to develop ways to make our vision become real".

## "This process actually brings us all together emotionally and just like writing a script for a great movie, we all uncovered what is really important about our town."

As the group of stakeholders grew to more than 20 residents and town leaders, each member demonstrated what was important to them and why they lived in Rolesville. You might compare the session to an episode of Antiques Road Show. Residents brought items: photographs, artifacts, pizza boxes, high school football jerseys, furniture, pieces of granite, photos of walking trails and more. They explained to the group why these attributes of the town were valuable to them. As the discussions continued common threads began to emerge. Things like safety were important factors. Being members of a community with a local police department that knows its residents is amazing. "We are all encouraged to call the department when we go on vacation and the police will patrol our street and check our property." Planned park and recreation events with organized sports like soccer and softball were also sources of community pride. They also gave residents a chance to develop friendships and meet. Community organizations and their many members work hard to make Rolesville a better place. The town park with playgrounds and trails gave young Moms the chance to enjoy the outdoors in a great community setting. One member brought a rocking chair to symbolize how most of the homes in Rolesville have front porches that help neighbors connect. Some members of the stakeholder's group brought photos of quaint coffee shops and charming downtown streetscapes, the conversation moved to the need for places to gather and experience community. Places to hold events and attract visitors to cool annual events and festivals. The group of twenty represented approximately six thousand residents and at the end of the meeting, the desire for better communication and places and events to gather emerged as early building blocks to the town's image.

#### Positioning Narrative

While the branding assignment began with thoughts of logos, colors, and symbols, developing a position and platform for the brand would establish a frame for us to create the graphic style.

In essence, they all helped to build a platform to tell their story.

Rolesville has a rich history. It is a safe place to live because its local Police & Fire Departments get to know all of its residents. Neighbors connect with each other and enjoy planned park and recreation events they actually use playgrounds and trails throughout the year. The vision for a charming downtown features areas to park and walk to quaint coffee shops, the local brewery, local shops, and charming downtown streetscape. Several times a year the town of Rolesville attracts regional visitors to cool annual events, concerts, and festivals.

Quality planned communities with amenities offer a wide variety of home styles and price choices. Mixed use land planning along the downtown core will expand "Main Street" into a genuine destination. All of this is within a short drive to the Capital City-Raleigh.

It is amazing, the impression from that little crossroad northeast of Downtown Raleigh seems to be insignificant to the commuter passing by on HWY 401. But once you dig a little deeper and get to know the people within the town limits you will find a fast-growing small town with a genuine desire for community and quality lifestyle all framed with a charming downtown.

Note: Highlighted words helped us to begin the second phase of the study - understanding how a new brand and vision can emerge.

#### Positioning Statement

Genuine
community
thrives in Rolesville
as we embark on
a new Mainstreet
design focused
on walkability,
connections to parks,
greenways and
gathering spaces.

All just 15 miles from Downtown Raleigh

Tagline

Genuine Community
Capital Connection

#### Logotype, Symbol, & Tagline

The symbol for Rolesville represents four key positions for the Town of Rolesville.

- Showing the NC State Capital Building in Raleigh conveys an important connection to the City and the advantages of living close to the culture a larger city brings us all.
   The green leaves symbolizes the rural countryside and our dedication to provide this way of life for our citizens.
- 3- The tower offers us a promise to plan and carefully develop Main Street into a place to gather, shop and enjoy life.
  - 4- The bicycle shows our commitment to the quality of life here through parks, greenways and safe streets.

The tagline quickly states perfectly what is great about Rolesville.

Genuine Community ( Our People )

Capital Connection ( Our Location )

The typography is simple, easy to read. Slightly dropping the "R" and the "S"increases the natural flow of the word. Elongating the oval letters gives the word more graphic presence

timeless...with a twist

### **DDA Communications**

To: DDA Board of Directors

From: Lori Ward, DDA Director

Subject: Rebecca's Alleyway

Date: April 16, 2019

#### **Background:**

In 2015 the DDA was approached by the owners of 134 N. Center Street (Attachment 8.A) for assistance in replacing the alleyway between the Marquis Parking Lot and Center Street. The alleyway appears to have been improved as part of the MainStreet '78 project, however no documentation regarding agreement has been found on this, or other, projects. As part of the 2016 Strategic Plan for Downtown Northville, the Plan stated "Numerous pedestrian cut-throughs provide important linkages from parking areas to Main and Center Street. Some cut-throughs are more attractive than others, but all play an important role in providing access from

parking areas to shops so customers can actually "park once" and easily connect to their destinations. The DDA should continue its ongoing discussions with property owners to ensure that all of these cut-throughs remain open and viable. Options to ensure public access can include easements, purchase, or development agreements, to name a few.

Previous discussions with the property owners ended when the cost of the project exceeded the amount that they would like to spend. The alley has remained open to the public during this time. Recently a change in the state law impacted restaurants with outdoor dining. The change required that the restaurants be ADA accessible to facilitate indoor use of the restaurant and use of the restrooms. The City's building official sent out a letter to all City restaurants notifying them of the change and followed up with those restaurants impacted by the change. Several restaurants made modifications to their buildings to allow for ADA access. Rebecca's currently have a stoop at the front of the building that does not allow for ADA access. The alleyway is the most promising option for providing this access, but currently does not meet code. After meeting with the code official, the building and business owners contact the DDA to see if the offer to work together to make improvements to the alleyway in exchange for an easement to keep the alleyway open for public use, was still on the table. Ward stated that there are no funds currently allocated for the project and that she would approach the DDA to see if there was a willingness to partner on the improvements.

#### **Budget:**

The proposals that were received during the 2015 discussions estimated the project at \$20,000. The owner has previously completed \$2,500 of survey work as part of the project. They are seeking a 50% participation by the DDA in exchange for providing an easement for public access (Attachment 8.B). The previously prepared Easement Agreement would require the City/DDA to insure and maintain the easement.

#### **Recommendation:**

DDA staff recommends that the DDA agree to share the cost of the alleyway improvements in order to ensure the alleyway remain open and accessible to the public. In addition, staff recommends that the Design Committee facilitate the project going forward.

December 24, 2014

Ms. Lori M. Ward, Director City of Northville Downtown Development Authority

Dear Ms. Ward,

I am one of the owners of 134 N. Center St. (Rebecca's Restaurant). We are planning to replace the brick paver walkway next spring with concrete to complement the recently constructed sidewalks throughout the city.

The walkway serves as an access to businesses and other attractions throughout the downtown area. Therefore, the owners are requesting financial assistance from the City of Northville Downtown Development Authority to help fund this project.

We have received a verbal quote of \$5,500.00 to complete the project. Bids will be sought from at least three qualified contractors prior to construction.

Your consideration of this request is greatly appreciated.

My husband, David Bolitho, can be reached at 248-921-6085 or at dcbolitho@gmail.com.

Sincerely,

**Robin Bolitho** 

#### ALLEYWAY EASEMENT AGREEMENT

THIS ALLEYWAY EASEMENT AGREEMENT ("Agreement"), is made this May					
, 2010, by and between	, whose address is				
hereinafter referred to as "Grantor", and the CIT	Y OF NORTHVILLE, MICHIGAN, a				
municipal corporation duly created and existing	under and by virtue of the laws of the State of				
Michigan, situated in Wayne County, Michigan,	hereinafter referred to as "Grantee", whose				
address is 215 West Main Street, Northville, Mic	chigan 48167.				

#### WITNESSETH:

WHEREAS, Grantor is the record owner of fee simple title to that certain real property (the "Land") situated in the County of Wayne, State of Michigan, more particularly described as:

Lot 700, of Plat #7, according to the plat thereof as recorded in Liber 66, Page 47, W.C.R.,
Parcel 48-001-04-0700-001;

WHEREAS, Grantor has agreed to grant to Grantee an easement for the benefit of the public over, through and under that portion of the Land more particularly described as the "Easement Area" on the sketch attached hereto as Exhibit A and incorporated herein by the reference (the "Easement Area") for the purposes hereinafter specified.

NOW, THEREFORE, for and in consideration of the sum not to exceed fifty-five hundred dollars (\$5,500) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties agree as follows:

- 1. <u>Recitals</u>. The recitals set forth above are true and correct and incorporated herein by this reference.
- 2. <u>Grant of Easement</u>. Subject to the terms and conditions hereinafter provided, Grantor hereby grants and conveys unto Grantee, its successors and assigns, an exclusive easement over, through or under the Easement Area, for the purpose of, repairing or replacing the hardscape, maintaining, and insuring the alleyway located to the north of 134 N. Center Street and described as the "Easement Area" for public use, together with the rights, easements,

privileges and appurtenances in or to the Easement Area which may be required for the full enjoyment of the easement rights herein granted.

- 3. <u>Term.</u> The easement rights granted herein shall be perpetual; provided, however, that from and after June 1, 2035, either Grantor or Grantee may terminate this Agreement and the easement rights granted herein upon forty-five (45) days notice to the other party.
- 4. <u>Construction, Maintenance and Repair</u>. Grantor shall be solely responsible for improving the alleyway within the Easement Area and in a good and workmanlike manner, free of all liens and in accordance with the requirements of all applicable governmental authorities. Once the improvements are completed and the Grantor has accepted the work, the Easement Agreement will become effective and the Grantor shall pay the Grantee the agreed upon sum.
- 5. <u>Insurance</u>. Grantee shall maintain a commercial general liability insurance policy ("Policy") for the parking lot in an amount equal to \$1,000,000 per occurrence and \$2,000,000 in the aggregate, and Grantor shall be named as an additional insured under the Policy.
- 6. <u>Successors and Assigns</u>. The easement granted herein shall be exclusive, run and be appurtenant to the lands herein described, and shall run with said lands during the term of this Agreement and be binding upon and inure to the benefit of and be enforceable by the parties hereto and the successors and assigns of the parties hereto. The rights and obligations of the parties hereunder shall run with and be appurtenant to the lands described herein during the term of this Agreement and be binding upon and inure to the benefit of and be enforceable by the parties hereto and the successors and assigns of the parties hereto.
- 7. <u>Entire Agreement</u>. This Agreement may not be amended, waived or discharged, except by instrument in writing executed by all parties hereto.
- 8. <u>Contribution.</u> The Grantor agrees to pay the Grantee an amount not to exceed \$5,500 for the repair/replacement of the hardscape surface located within the Easement Area.
  - 9. Improvement Plans. The Improvement Plans will be reviewed by the Grantee
- 10. <u>Site Cleanup</u>. The Grantor will ensure that any contractors, subcontractors and/or trades trade contractors employed to complete the Improvements will keep the Project site clean and free of debris so as not to interfere with ongoing business operations and public use.
- 11. <u>Commencement.</u> The Grantee shall commence the design and construction of the Improvements in the Summer of 2015 following a Notice to Proceed by the Grantor.
- 12. <u>Date of Completion</u>. The Grantee shall achieve substantial completion of the Improvements no later than August 1, 2015 ("Completion Date").

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed as of the date first above written.

# **DDA April Project Updates**

### **DDA Staffing**

Jeri Johnson has accepted the position of Marketing and Communications Director for the DDA. She will be working T-Th 9-4 and a few hours every other Monday to submit AP. Jeri's employment with the DDA has necessitated her stepping down from the DDA Board. Jeri's contacts in the business community and 17 years of experience working for the Chamber of Commerce make her uniquely qualified for the position with the DDA. She is scheduled to begin on Wednesday, April  $10^{th}$ .

## Parking Deck Repairs

DDA and DPW staff met with the project engineer from Carlisle Wortman to review the construction documentation and the proposed schedule. Minor changes were made to the drawings. The current schedule shows the bid documents being let this week, so obviously we will need to make some changes. Estimates for the project came in way below the initial estimates. Staff is recommending that we included the retrofit of all of the lighting in the project to LED. The exterior decorative lighting would be installed to match the other Induction lighting downtown, but the interior lighting and Cobra overhead lights would switch to LED. Staff met to discuss how to achieve this goal.

The City will need to meet with Singh to determine their involvement in the project. A financial strategy needs to be developed to determine how much will be funded by the Parking Fund, TIF reserve or future capture, SAD or other methods. In previous projects this has been prepared by the Finance Department.

# **Entranceway Signs**

The City, needs to approve a contract with Buzz Bizzell to get the entranceway sign project started. The DDA will vote on the branding portion of the project at their April 16<sup>th</sup> meeting. He is ready to proceed with the project.

Bench Plaque Project

The DDA has supported the creation of a sponsorship program for benches, planters and trash receptacles. The DDA office gets frequent requests to sponsor site furnishings and currently has no program in place to

facilitate the request. Ward reached out to Conceptual Site Furnishings to discuss the possibility of ordering future benches with a plaque. The benches, made of cast aluminum, would have an inset bronze plaque on the

back of the bench. The benches are \$1,375 each and the plaque is \$350. They offer a

5% discount for orders of 10 or more which would bring the cost down to \$1306. This price does not include shipping or installation. Approximately 13 of the old wooden benches are left to be replaced. In addition, there are additional locations that could accept additional site furnishings. DDA staff has received the samples and the Design Committee has recommended utilizing the plaque. DDA staff will reach out to the residents who have indicated that they are interested in sponsoring a bench so that we can place a spring order. In addition, the DDA will utilize social media and the DDA list serve to reach out to others who may want to sponsor a bench. DDA staff will bring samples of the product to the meeting. The DDA will be discussing the project at their April meeting to determine the price for the bench sponsorship. Will the DDA help subsidize the benches in order to attract sponsors or do they want the sponsor to pay for the entire cost?

#### Northville Downs

The Watermark Team participated in a 2<sup>nd</sup> pre-application meeting with the City staff and consultants. The Team presented changes to the project and discussed whether or not the project would proceed as a Matter of Right project or as a PUD. The PUD would allow the project to have more flexibility on issues like building placement and parking. HPH has contacted the City and is scheduled to be on the Planning Commission's agenda for PUD eligibility for the entire 50 acres on April 16<sup>th</sup>. No specific request for funding has been made by either Watermark or HPH.

The Economic Development Committee is scheduled to meet on April 9<sup>th</sup> to review the latest submissions and provide comments at the next Planning Commission meeting.

# The Foundary

The City held a pre-application meeting with representatives of Singh Development to discuss a potential PUD project on the Foundary Flask Site. The project consists of 174 rental units, 6 of which are Live/Work units. Singh hoped to utilize the 6 Live/Work units as their required commercial component of the project. The project also included a river walk along the Rouge, the length of the property. Parking would be provided on street, in a surface lot at the east end of the project and in a 4 story parking deck. Singh inquired about the potential for Brownfield funding for environmental cleanup.

Mr. Patrick Sullivan 215 W Main St Northville, MI 48167

RE: PUD Eligibility for The Downs ("Project")

To the City of Northville Planning Commission,

We are pleased to submit this letter and revised plans as a request to be on the agenda for the April 16<sup>th</sup>, 2019 City of Northville Planning Commission meeting to request approval of Planned Unit Development ("PUD") eligibility for The Downs ("Project").

As you know, PUD eligibility for the Project has been previously reviewed by the Planning Commission at its October 2<sup>nd</sup>, 2018 and December 18<sup>th</sup>, 2018 meetings. Since that time, we have had several meetings with City Manager Pat Sullivan and Planning Consultant Sally Elmiger to assure that we fully address the requirements for PUD eligibility. We believe that our prior submissions, this letter and revised plans are consistent with the intention and character illustrated in the City of Northville's Master Plan for this area and demonstrate compliance with the requirements for PUD eligibility.

It has always been the position of the Developer that a PUD for this full site is the best approach to assure that the objectives of the Master Plan and the community are realized. The alternative of piecemeal development of this site makes it less likely that the Master Plan vision will be achieved and that significant public benefits proposed by the Developer, including day lighting of the river, substantial public park and green space and maintenance and relocating the Farmer's Market will be realized. As reflected in our prior and current submissions, the Developer remains fully committed to the financial responsibilities associated with these and other aspects of the proposed Project pursuant to its PUD application.

Received

MAR 2 8 2019

City of Northville

To clarify, this development will be implemented in at least two phases. A multi-phase development schedule would be common in any development of this size. In this case, there is the additional fact that there are actually two purchase agreements for this site, one of which is for approximately 12 acres adjacent to Cady Street (the "North Property") and a second covering the remaining approximately 38 acres south of Beal Street (the "South Property"). The anticipated timing for closing on the North Property is mid-2019 and the South Property closing is not expected to be earlier than December 31st, 2020, due to the racetrack's ongoing business.

The Developer assures you that it fully understands the importance of the development of this property to the City of Northville. We have exactly the same interests, as the value of this development can only be realized if we guarantee that it maintains and enhances the characteristics that make the City of Northville a special place.

In our meetings following the December 18<sup>th</sup> Planning Commission meeting, we began with a review of the summary of issues from the Carlisle Wortman Associates (CWA) letter of December 13<sup>th</sup>, 2018. The following is the Developer's response to each of 11 issues set forth in that letter:

#### CWA Issue #1:

Comprehensive funding plan to daylight the river. At a minimum, the plan should describe the expected cost, who will pay these costs and where the funds will come from. We support a public/private partnership, and consider grants a reasonable approach to making this happen. However, a clear picture of how the project will be funded and by whom needs to be provided.

Developer Response:

Based on preliminary estimates, the cost to daylight the river will be approximately \$4 million. The \$4 million does not include the underlying \$2.5 million value of the land that, which brings the total cost of daylighting the river to approximately \$6.5 million. The \$4 million cost includes removing the existing culvert which the river flows through underground, excavation of a new river-bed, landscaping the river, stabilizing the river bank and construction of one bridge crossing the river. Attached are supporting documents from engineering firms.

Projects of this nature are almost always funded and implemented by governmental or philanthropic organizations. In this case, Hunter Pasteur Homes ("HPH") and the development team are proposing to work with Friends of the Rouge ("FOTR"), in collaboration with the City of Northville, to source capital to fund the daylighting project. HPH is committing private capital towards daylighting the river while working with FOTR and the City of Northville to raise the remaining funds for the project through grants from philanthropic sources and county, state or federal agencies. Ideally, HPH would like to fund 50% of the daylighting the river costs, \$2 million, and receive the remaining \$2 million from other sources. If FOTR is unsuccessful in securing all of the funds to pay for daylighting the river, HPH is willing to fund the shortfall of what FOTR is unable to raise. In this proposal, there is NO cost to the city and the developer is NOT seeking an abatement for any costs related to daylighting the river.

#### CWA Issue #2:

The project offers an 8.3-acre linear park. It is not clear if the applicant is offering to also construct the elements in the park (walkways, river overlook, lighting, landscaping, Farmer's Market area (if located here), etc.). This needs to be clarified.

#### Developer Response:

The developer is proposing to pay 100% of the cost for the linear park, including all of its amenities, such as walkways, river outlook, lighting and landscaping. The park, outside of the daylighted river area, will be funded entirely by the developer. We estimate the property cost of the public park and daylighted river space to be more than \$2.5 million and the cost of improvements for the park to be approximately \$1 million. We have also committed that all ongoing maintenance and operating costs for these spaces will be covered by the development Homeowners Association. The developer is **NOT** seeking any financial commitment from the city of Northville or alternative sources and there will be **NO** cost to the city or an abatement requested for the cost to construct the park or the ongoing maintenance of the park.

#### CWA Issue #3:

City Engineer's opinion about needed traffic improvements, and whether or not the applicant agrees to making them.

#### Developer Response:

Over the past several months, the city's traffic consultant (OHM), the Developer's traffic consultant (Fleis & VandenBrink) and officials from Wayne County have met to discuss the various open traffic related items, the main one being the proposed round-a-bout at the intersection of Seven Mile Road and Center Street.

As of the date of this MOU, Wayne County has not given an official response as to whether they support the round-a-bout at the intersection of Seven Mile Road and Center Street.

The Developer is proposing, at its sole cost and responsibility, to fund the implementation of all traffic improvements proposed in the Traffic Impact Study performed by Fleis & VandenBrink and submitted to the City of Northville as part of its PUD submittal. Additionally, if Wayne County determines that a round-a-bout is the preferred solution at the intersection of Seven Mile Road and Center Street, the Developer is willing to fund the city's 20% allocation towards the construction of the round-a-bout. This contribution will cover any financial responsibility the City of Northville might incur from a round-a-bout.

The Developer is prepared to accept and provide financial support to whatever traffic mitigation measures are required and approved. The Developer is aware that two other intersections (Cady Street/Center Street and 7 Mile Road/Northville Road) are also being evaluated for potential traffic mitigation. If the process to make these determinations is ongoing, we respectfully recommend that a PUD grant be made conditional upon that resolution so as not to unfairly delay the balance of the development planning process based upon an issue that is not within the Developer's authority to resolve.

#### CWA Issue #4:

Refinements to Density

#### Developer Response:

The development team fully understands that the density of the Project is an issue and as a result previously reduced the overall density from 577 units in its October 2, 2018 proposal to 546 units in its December 18, 2018 proposal.

As illustrated in the attached site plan drawing, the current proposal assumes that a round-a-bout will be implemented for traffic mitigation purposes. This further reduces the number of previously planned units a further 4 units.

Lastly, the development team would like to point out that in a likely scenario that the first phase of the Project, located on the North Property along Cady Street, is developed first, and the South Property is developed as a second phase, the density of the project will be at the low end of the range set forth in the Master Plan.

The portion of the Project south of Beal Street is approximately 36 acres and is being proposed for 236 single family homes and townhomes. Subtracting approximately five acres for right of ways, the net result of buildable acreage is approximately 31 acres. The proposed density of 236 units on approximately 31 acres results in approximately 7.6 units per acre, which falls at the lower end of Northville's Master Plan, which calls for density of between 6 and 12 dwellings per acre.

#### CWA Issue #5:

Pocket park status (public or private) and size.

#### Developer Response:

The developer is proposing that the pocket parks located within the project are public and can be used by all residents of Northville. The size of the pocket parks has not yet been finalized but are expected to be between one and two acres and will be considered as part of site plan approval. As with the proposed public park space associated with the river day lighting, all costs related to maintenance of the pocket parks will be covered by the Home Owners Association.

#### CWA Issue #6:

Input from the Chamber of Commerce regarding the re-located Farmer's Market.

#### Developer Response:

The Development team met with Ms. Jody Humphries from the Northville Chamber of Commerce on December 7<sup>th</sup>, 2018. At that meeting, the development team proposed two potential locations for the relocated Farmer's Market; the first location would be at the northern part of the 8.3-acre linear park and the second location would be in the surface parking lot behind the proposed apartment complex, north of Beal Street.

At the Planning Commission meeting on December 18, 2018, Mr. Aaron Cozart from the Chamber of Commerce spoke publicly about the Chamber's desire to relocate the Farmer's Market to the second proposed location, in the surface parking north of Beal Street.

The development team views the relocation of the Farmer's Market to the surface parking lot behind the proposed multi-family project and north of Beal Street as a resolved matter and one that the Chamber of Commerce has voiced their full support.

The estimated cost of the land for the proposed Farmer's Market site is approximately \$300,000. The Developer is not including this \$300,000 cost as a public benefit at this time.

#### CWA Issue #7:

Use of parking spaces by the public on private streets in townhouse development.

#### Developer Response:

The development team is open to making the streets within the Project public, allowing residents of Northville to park on them. If the streets are private, the developer is also willing to allow public parking on them during certain times.

#### CWA Issue #8:

Five-story height of the proposed apartment building and three-story height of the townhomes.

#### Developer Response:

The proposed multi-family apartment building along Cady Street will be <u>four</u> stories tall, not five. The height of the townhomes will be between two and a half and three stories tall.

#### CWA Issue #9:

Lack of greenspace in townhome cluster on northwest corner of S. Center Street /7-Mile Intersection.

#### Developer Response:

The developer is open to additional green space in this cluster of townhomes located at the northwest corner of Seven Mile Road and South Center Street. As previously noted, the attached proposed site plan assumes that Wayne County supports a round-about at this intersection. This reduces the number of proposed units in this cluster and increases green space to accommodate a buffer from the round-a-about.

#### CWA Issue #10:

Gateway features that emphasize the entrance to the City of Northville (vs. The Downs development).

#### Developer Response:

The attached site plan includes an illustrative example of a potential gateway feature, developed by Grissim Metz Andriese Associates. The Developer will work with the City and its design team during the site plan approval process to refine this design to achieve the desired City gateway feature.

#### CWA Issue #11:

Non-motorized bicycle and pedestrian amenities along S. Center and to Hines Park pathway.

#### Developer Response:

The proposed traffic improvements outlined in the Fleis & VandenBrink traffic impact study, which the Developer is committed to implementing at its sole cost, does not eliminate the bicycle and pedestrian amenities along South Center Street. Given their importance to the community, the Developer is committed to keeping the existing bicycle and pedestrian amenities in place.

In addition to the 11 issues detailed in the CWA Review Letter, the Developer has discussed other issues with Mr. Sullivan and Ms. Elmiger, including input received by Mr. Sullivan and Ms. Elmiger from Planning Commission members following the December 18, 2018 Planning Commission meeting, as follows:

#### 1. Townhome and Single-Family Location:

Included with this letter is Exhibit A, which is a letter from Seiber Keast Engineering, the development team's civil engineer, thoroughly detailing the issues with ground water, soil conditions and site grading that led to single family homes being located in the middle of the site and the townhomes being located at the southern portion of the site. In summary, property grade and groundwater levels that were not considered in the Master Plan process account for the currently proposed locations of townhomes and single-family homes.

#### 2. Apartment Parking Requirements

An important benchmark worth highlighting for urban apartment complex parking in Northville is the Main Centre apartment complex, which has 74 units with 108 bedrooms and has 92 parking spots.

Additionally, the Developer wants to emphasize that the financial and business interests of the developer and apartment owner are fully aligned with the City's interest to assure that there is fully adequate resident parking. In this instance, the apartment developer, Watermark Residential, will also manage the apartment building and as such will have an interest independent of but consistent with the City of Northville's interests, to assure that its tenants have fully satisfactory and adequate parking facilities.

#### 3. Economic Development Program

The development team fully understands that there are a number of details that will need to be worked out for any sort of incentive programs that are part of the Project; however, it is important that it is understood that **NO** funds or incentives are being sought for the costs of daylighting the river or the linear park.

The Developer would like to fully engage with the City of Northville staff to discuss potential economic development programs to address public infrastructure improvements and environmental remediation at the appropriate time.

#### 4. Architecture

Some questions have been raised about the architecture, and in particular, the extent to which the architecture will conform to the character of the City of Northville and how it will influence appearances on the Center Street Gateway. As previously indicated, the developer believes that its interests and those of the City of Northville are aligned in this regard and the Developer will be working with Presely Architecture and the city during the site plan approval process to address this issue.

Other important issues have been raised by members of the Planning Commission and by the public in the course of our PUD application process, and the Developer is committed to appropriately addressing these issues in the subsequent course of site plan review and approval.

The Developer respectfully submits that its prior applications, this application and draft site plan positively and compellingly address all of the criteria applicable to the grant of the requested PUD eligibility.

Regards,

Randy Wertheimer

**CEO of Hunter Pasteur Homes**

Re: The Downs - Site Grading and Product Location

Dear Mr. Wertheimer:

As a part of the City of Northville's review of The Downs PUD Eligibility Site Plan, it was noted the proposed location of the townhomes and single-family homes did not align with the proposed densities and product types shown in the Master Plan.

As noted in Hunter Pasteur's letter dated November 27th, 2018 to the City of Northville, the reason for placing the single-family homes between Beal Street and Fairbrook Street and the townhomes south of Fairbrook Street is due to the topography of the site. The townhome units are typically constructed on low sloping areas due to the closely spaced driveways and limited space in front of and between the buildings. The existing ground slope in the areas between Beal Street and Fairbrook Street is approximately 6%-8%. The proposed townhome units will have the same Garage Floor Elevation within a particular building. In order to keep the driveway slopes reasonable (9% maximum) the access road between the buildings cannot be sloped greater than 2-3%. (Please see the attached preliminary grading sketch for the units along Center Street.) Additional engineered fill (4'- 6' of fill) will need to be provided on site to accommodate the site grading around the townhome units if they are located between Beal Street and Fairbrook Street.

Additionally, the groundwater elevations south of Fairbrook Street create problems for single-family homes in this area. All of the single-family homes will have basements and the basement footings will need to be placed a minimum 1' above the groundwater elevations to prevent water from infiltrating the basements and to keep sump pumps from continuously running. In general, the groundwater in the area south of Fairbrook Street is 3'-4' below existing grade. Therefore, an additional 6'-8' of fill would be required to keep the single-family basement elevations above the ground water across the entire area south of Fairbrook Street.

The proposed Site Plan layout addresses both of these concerns. Placing the single-family homes between Beal Street and Fairbrook Street offers greater flexibly for grading as the units are spaced much further apart and the changes in grade can be made up more easily on the lots. Additionally,

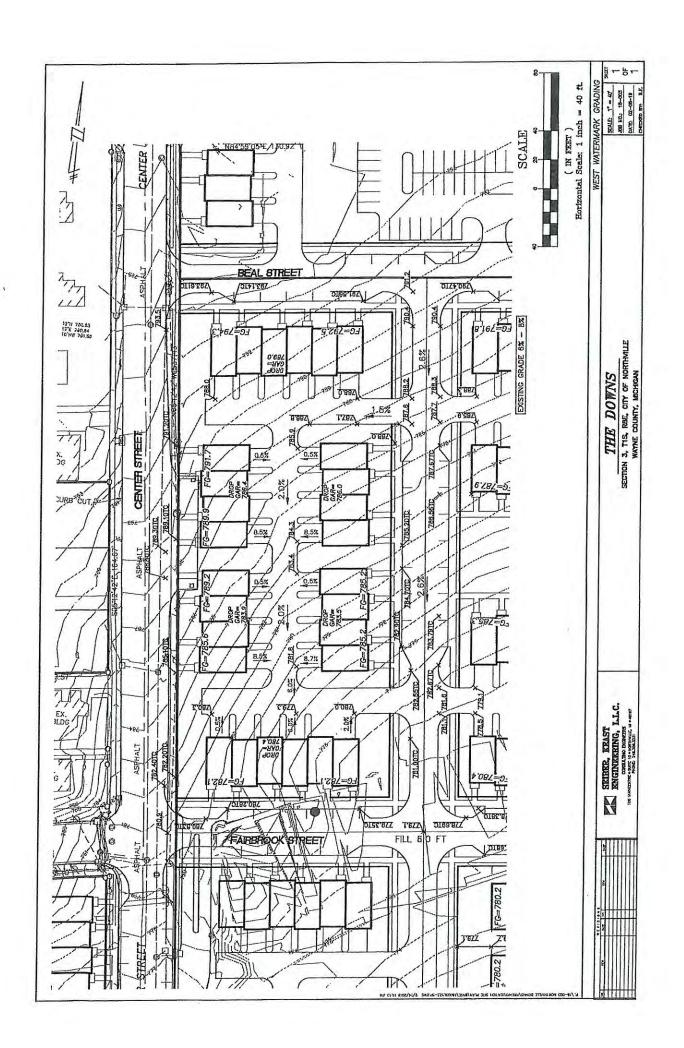

Mr. Randy Wertheimer February 8, 2019 Page 2

the groundwater depths in this area are 7' to 14' below grade which are acceptable depths to accommodate basements.

Very Truly Yours,

SEIBER KEAST ENGINEERING, LLC

Robert J. Emerine, P.E.

# Northville Downs Property Estimated Costs to "Daylight" River & Park

Item		Dec. 12, 2018 Estimated Cost			
Costs					
Design and Planning	\$	300,000			
De-Watering	\$	250,000			
Legal	\$	50,000			
Environmental Clean-Up	\$	100,000			
Mobilization	\$	10,000			
Demolition Existing Concrete Structures	\$	215,000			
Build New River (Earthwork)	\$	400,000			
Silt Fence	\$	17,500			
Temporary Fence	\$	7,500			
Permits & Agency Review Fees (Application)	\$	100,000			
Bank Stabilization (Channel Restoration)	\$	725,000			
Testing - Soil Testing	\$	40,000			
Staking	\$	30,000			
Engineering & Engineering Review	\$	175,000			
Relocate Sanitary Pipe in River	\$	60,000			
Construction Management & Permitting	\$	150,000			
Landscape Design & Cleanup	\$	100,000			
Landscaping in River Area	\$	180,000			
Bridge & Headwall	\$	150,000			
Wetland / River Consulting (King & McGregor)					
Wetland Flagging	\$	1,030			
Geo Survey	\$	24,870			
Stream Relocation	\$	25,350			
MDEQ Permit	\$	21,300			
ESA Compliance	\$	6,250			
Contingency	\$	500,000			
Cost for Daylighting the River	\$	3,638,800			
0% Cost Increase Due to Work Being Done in 2021	\$	363,880			
OTAL COSTS:	\$	4,002,680
